Qualifications in Garden Design

Version 7.0

(May 2017)

This qualification specification covers the following qualifications:

Qualification Title	Qualification Number
Gateway Qualifications Level 2 Certificate In Garden Design	600/9673/1
Gateway Qualifications Level 3 Certificate In Garden Design	600/9677/9
Gateway Qualifications Level 3 Certificate In Plants and Planting Design	600/9674/3
Gateway Qualifications Level 3 Certificate In Principles and Practice of Garden Design	600/9676/7
Gateway Qualifications Level 3 Diploma In Garden Design	600/9675/5

About this qualification specification

This qualification specification is intended for Tutors, Assessors, Internal verifiers, Centre Quality Managers and other staff within Gateway Qualifications recognised centres and/or prospective centres.

It sets out what is required of the learner in order to achieve the qualification. It also contains information specific to managing and delivering the qualification(s) including specific quality assurance requirements.

The guide should be read in conjunction with the Gateway Qualifications Centre Handbook and other publications available on the website which contain more detailed guidance on assessment and verification practice.

In order to offer this qualification, you must be a Gateway Qualifications recognised centre. If your centre is not yet recognised, please contact our Development Team to discuss becoming a Gateway Qualifications Recognised Centre:

1. Qualification Information

1.1 About the qualifications

The qualifications have been approved by the Office of Qualifications and Examinations Regulation (Ofqual) that regulates qualifications, examinations and assessments in England.

The Gateway Qualifications Level 2 Certificate in Garden Design has been designed to enable learners to develop the underpinning plant knowledge and drawing skills required to enter the garden design industry.

The Gateway Qualifications Level 3 Certificate in Garden Design has been designed to enable learners to develop the drawing skills and the plant knowledge required to enter the garden design industry.

The Level 2 and 3 Certificate qualifications can be used in conjunction with other horticultural qualifications for those new to the land based sector.

Achievement of the Gateway Qualifications Level 3 Certificate in Garden Design meets the minimum required standard for occupational competence to function as a professionally competent garden designer.

The Gateway Qualifications Level 3 Certificate in Plants and Planting Design has been designed to enable learners to develop specialist knowledge and skills in readiness for setting up a planting design business.

The Gateway Qualifications Level 3 Certificate in the Principles and Practice of Garden Design has been designed to enable learners to develop specialist knowledge and skills in readiness for employment as part of a garden design practice or larger organisation such as a local authority, or in setting up a self-employed business in design and structure.

The Gateway Qualifications Level 3 Diploma in Garden Design has been designed to enable learners to develop design skills and knowledge of both plant requirements and garden design solutions required within the garden design industry. Achievement of this qualification meets the required standard for occupational competence to function as a professionally competent garden designer and, in addition, enables the learner to develop the additional business and customer service skills required to run a successful garden design business. On completion of this qualification learners will be equipped to progress to employment within the garden design industry.

The qualifications have been designed in conjunction with the garden design specialists at Capel Manor College.

1.2 Objective

The Gateway Qualifications suite of Garden Design qualifications are categorised as having the following objective:

- Qualifications that indicate an individual can undertake a specific role in the workplace and that may be relied upon by employers.
- Qualifications taken primarily for growth and enjoyment

1.3 Key Facts

Qualification Title	Total Qualification Time	Guided Learning	Credit Value
Level 2 Certificate in Garden Design	297	192	27
Level 3 Certificate in Garden Design	315	210	27
Level 3 Certificate in Plants and Planting Design	297	192	24
Level 3 Certificate in Principles and Practice of Garden Design	297	192	24
Level 3 Diploma in Garden Design	594	384	48

Total Qualification Time is the number of notional hours which represents an estimate of the total amount of time that could be reasonably expected to be required for a Learner to achieve and demonstrate the achievement of the level of attainment necessary for the award of the qualification.

Total Qualification Time is comprised of the following two elements:

- The number of hours which an awarding organisation has assigned to a qualification for Guided Learning, and
- An estimate of the number of hours a Learner will reasonably be likely to spend in preparation, study or any other form of participation in education or training, including assessment, which takes place by – but, unlike Guided Learning, not under the Immediate Guidance or Supervision of – a lecturer, supervisor, tutor or other appropriate provider of education or training.

1.4 Funding

For information regarding potential sources of funding please visit the following websites;

The Education Funding Agency <http://www.education.gov.uk/aboutdfe/executiveagencies/efa>
 The Skills Funding Agency <http://skillsfundingagency.bis.gov.uk/>

or, contact your local funding office.

1.5 Achievement methodology

The qualification will be awarded to learners who successfully achieve an approved combination of units through a Portfolio of Evidence that has been successfully verified and monitored through Gateway Qualifications' Quality Assurance process. Achievement is therefore determined by successful completion of unit assessment with no further requirement for additional/summative assessment.

1.6 Geographical Coverage

The qualifications have been approved by Ofqual to be offered in England.

1.7 Progression Opportunities

The Level 2 Certificate in Garden Design enable progression to employment, further learning opportunities within employment, or further study.

Learners achieving the Level 2 Certificate in Garden Design could progress on to VRQs to achieve occupational competence in garden design, such as the Gateway Qualifications Level 3 Certificate in Garden Design or the Gateway Qualifications Level 3 Diploma in Garden Design.

The Level 3 Certificate in Garden Design and the Level 3 Diploma in Garden Design enable progression to employment, further learning opportunities within employment, or further study.

The Level 3 Certificate in Garden Design and the Level 3 Diploma in Garden Design are nested qualifications, and as such units gained through achievement of the Level 3 Certificate in Garden Design would not need to be repeated when taking the Level 3 Diploma in Garden Design. These qualifications are recognised by Lantra as meeting the required standard for occupational competence in the garden design sector.

The Level 3 Certificate in Garden Design, the Level 3 Certificate in Plants and Planting Design, and the Level 3 Certificate in Principles and Practice of Garden Design enables progression to other vocationally related qualifications such as the Level 3 Diploma in Garden Design, or to further learning opportunities within employment, or further study in the garden design sector.

The Level 3 Diploma in Garden Design enables progression to further learning opportunities within employment or to further study in the garden design sector.

1.8 Relationship with other frameworks

The Level 2 Certificate in Garden Design are related to the Level 2 Amenity Horticulture National Occupational Standards (NOS) (2008) developed by Lantra. The qualifications provide a significant amount of knowledge, understanding and skills development that underpin occupational competence in garden design.

The Level 3 Certificate in Garden Design and the Level 3 Diploma in Garden Design are related to the Level 3 Amenity Horticulture National Occupational Standards (NOS) (2008) developed by Lantra. The qualifications provide the knowledge, understanding and skills development that underpin occupational competence in garden design.

The Level 3 Certificate in Plants and Planting Design and the Level 3 Certificate in

Principles and Practice of Garden Design are related to the Level 3 Horticulture National Occupation Standards (NOS) (2010) developed by Lantra.

2 Learner Entry Requirements

2.1 Age

The approved age range for these qualifications is

Qualification Title in full	Age range
Gateway Qualifications Level 2 Certificate In Garden Design	16-18, 19+
Gateway Qualifications Level 3 Certificate In Garden Design	16-18, 19+
Gateway Qualifications Level 3 Certificate In Plants and Planting Design	18+, 19+
Gateway Qualifications Level 3 Certificate In Principles and Practice of Garden Design	18+, 19+
Gateway Qualifications Level 3 Diploma In Garden Design	18+, 19+

2.2 Prior Qualifications

There are no requirements for learners to have attained prior qualifications.

2.3 Prior Skills/Knowledge/Understanding

The Level 2 Certificate in Garden Design is designed for open access without the need for prior knowledge or attainment in the specific area.

The Level 3 Garden Design qualifications are designed for open access without the need for prior attainment in the specific area. It is however suggested that learners have prior subject knowledge, for example plants knowledge.

2.4 Restrictions

There are no restrictions on learner entry to the Level 2 Certificate in Garden Design.

Although there are no restrictions on learner entry to the Level 3 Certificate in Garden Design or the Level 3 Diploma in Garden Design, it is highly recommended that learners have experience and/or underpinning knowledge of the relevant subject areas before undertaking these qualifications.

2.5 Access to qualifications for learners with disabilities or specific needs

Equality and fairness are central to our work. Our equality policy requires that all learners should have equal opportunity to access our qualifications and assessments, and that our qualifications are awarded in a way that is fair to every learner.

We are committed to making sure that:

- learners with a protected characteristic (as defined by the Equality Act 2010) are not, when they are undertaking one of our qualifications, disadvantaged in comparison to learners who do not share that characteristic
- all learners achieve the recognition they deserve for undertaking a qualification and that this achievement can be compared fairly to the achievement of their peers.
- details on how to make adjustments for learners with protected characteristics in the policy document

2.6 Additional Rules/Guidance

There are no additional rules or guidance relating to these qualifications.

3 Achieving the Qualification

3.1 Qualification Structure (Rules of Combination and Unit List)

The knowledge, skills and understanding that will be assessed as part of the qualification are set out within the unit specifications. These include the learning outcomes and associated assessment criteria. To obtain unit information, please contact Gateway Qualifications who will enable access to our unit library.

Gateway Qualifications Level 2 Certificate In Garden Design

To achieve the Gateway Qualifications Level 2 Certificate In Garden Design, learners must successfully complete 27 credits. All 24 credits from the mandatory units must be completed. A minimum of 3 credits are taken from the optional units.

3.2 Recognition of Prior Learning (RPL)

Recognition of prior learning is a process that considers if a learner can meet the specified assessment requirements through knowledge, understanding or skills that they already possess and that can contribute towards the attainment of a qualification for which they are undertaking.

Where Recognition of Prior Learning is permitted then the evidence must be mapped against the criteria for which it is being claimed for and be valid, authentic, sufficient, reliable, valid and current.

A maximum of 70% of a qualification can be achieved through the process of Recognition of Prior Learning, with at least 30% gained through new learning.

The process for claiming RPL is set out in the Gateway Qualifications' policy on Recognition of Prior Learning.

3.3 Links to other qualifications

The Level 2 Certificate in Garden Design enable progression to employment, further learning opportunities within employment, or further study.

Learners achieving the Level 2 Certificate in Garden Design could progress on to VRQs to achieve occupational competence in garden design, such as the Gateway Qualifications Level 3 Certificate in Garden Design or the Gateway Qualifications Level 3 Diploma in Garden Design.

The Level 3 Certificate in Garden Design and the Level 3 Diploma in Garden Design enable progression to employment, further learning opportunities within employment, or further study.

The Level 3 Certificate in Garden Design and the Level 3 Diploma in Garden Design are nested qualifications, and as such units gained through achievement of the Level 3 Certificate in Garden Design would not need to be repeated when taking the Level 3 Diploma in Garden Design. These qualifications are recognised by Lantra as meeting the required standard for occupational competence in the garden design sector.

The Level 3 Certificate in Garden Design, the Level 3 Certificate in Plants and Planting Design, and the Level 3 Certificate in Principles and Practice of Garden Design enables progression to other vocationally related qualifications such as the Level 3 Diploma in Garden Design, or to further learning opportunities within employment, or further study in the garden design sector.

The Level 3 Diploma in Garden Design enables progression to further learning opportunities within employment or to further study in the garden design sector.

4 Assessment and Quality Assurance

The following are in addition to the standard assessment and quality assurance requirements set out in the Gateway Qualifications Centre Handbook.

4.1 Method of Assessment

The method of assessment for the qualifications is through a portfolio of evidence.

4.2 Assessment Materials

There are no specific assessment materials provided for this qualification.

4.3 Qualification-Specific Centre Requirements

Centres must ensure that they have the appropriate resources in place when delivering performance units from vocational areas.

4.4 Qualification-Specific Tutor/Assessor Requirements

There are no specific tutor/assessor requirements for these qualifications.

4.5 Qualification-Specific Verification Requirements

There are no specific verification requirements for these qualifications.
