1. Qualification Information

1.1 About the qualification

This qualification has been approved by the Office of Qualifications and Examinations Regulation (Ofqual) that regulates qualifications, examinations and assessments in England.

It has been developed to enable providers of training to determine that those delivering training on their behalf understand the content of the training and are able to apply training and assessment methods effectively. It is intended for use with learners who are responsible for the delivery and assessment of training rather than for planning, designing and developing materials for training.

1.2 Objective

The qualification is intended to recognise the learner's ability to deliver and assess a training session or short series of training sessions.

1.3 Funding

For information on potential sources of funding in England please visit the Education and Skills Funding Agency:

<https://www.gov.uk/government/organisations/education-and-skills-funding-agency>

<https://www.gov.uk/government/collections/qualifications-approved-for-public-funding>

<https://hub.fasst.org.uk/Pages/default.aspx>

1.4 Geographical Coverage

This qualification has been approved by Ofqual to be offered in England.

1.5 Progression Opportunities

Learners who complete this unit may choose to extend their skills in delivering training through progressing to the Level 3 Award in Education and Training and/or to the Level 4 Certificate in Education and Training. They may also be able to seek new employment opportunities in which training skills would be valued.

1.6 Relationship with other frameworks

The qualification has no direct relationship with other frameworks.

2. Learner Entry Requirements

2.1 Key information

Age	The approved age range for this qualification is 19+.
Prior qualifications or units	There is no requirement for learners to have achieved prior qualifications.
Prior skills/knowledge/understanding	There is no requirement for learners to have specific prior skills, knowledge or understanding although it is expected that learners will have prior experience relevant to the area of the training that they will be delivering.

Additional requirements/guidance	There are no additional rules or guidance regarding learner entry requirements.

2.2 Access to qualifications for learners with disabilities or specific needs

Gateway Qualifications and recognised centres have a responsibility to ensure that the process of assessment is robust and fair and allows the learner to show what they know and can do without compromising the assessment criteria.

Gateway Qualification has a duty to permit a reasonable adjustment where an assessment arrangement would put a disabled person at a substantial disadvantage in comparison to someone who is not disabled. Please refer to [Section 4.11 Access Arrangement, Reasonable Adjustments and Special Considerations](#) for further details

2.3 Recruiting Learners with Integrity

It is vital that centres recruit with integrity with regard to qualifications. Centres must ensure that learners have the correct information and advice on their selected qualification(s) and that the qualification(s) will meet their needs.

The recruitment process must include the centre assessing each potential learner and making justifiable and professional judgements about the learner's potential to successfully complete the assessment and achieve the qualification. Such an assessment must identify, where appropriate, the support that will be made available to the learner to facilitate access to the qualification(s).

3. Achieving the Qualification

3.1 Achievement methodology

The qualification will be awarded to learners who successfully achieve the required unit through a Portfolio of Evidence that has been successfully verified and monitored through Gateway Qualifications Quality Assurance process.

3.2 Qualification Size

Qualification Title in full	Credit Value	Total Qualification Time	Guided Learning Hours
Gateway Qualifications Level 3 Award In Delivering Training	4	40	26

Total Qualification Time is the number of notional hours which represents an estimate of the total amount of time that could be reasonably expected to be required for a Learner to achieve and demonstrate the achievement of the level of attainment necessary for the award of the qualification.

Total Qualification Time is comprised of the following two elements:

- the number of hours which an awarding organisation has assigned to a qualification for Guided Learning, and
- an estimate of the number of hours a Learner will reasonably be likely to spend in preparation, study or any other form of participation in education or training, including assessment, which takes place by – but, unlike Guided Learning, not under the Immediate Guidance or Supervision of – a lecturer, supervisor, tutor or other appropriate provider of education or training.

3.3 Qualification Structure (Rules of Combination and Unit List)

The knowledge, skills and understanding that will be assessed as part of the qualification are set out within the unit specifications. These include the learning outcomes and associated assessment criteria. To obtain unit information, please contact Gateway Qualifications who will enable access to our unit library.

For information on Recognition of Prior Learning/Exempt and Equivalent units please see section **3.3 Recognition of Prior Learning (RPL)**.

Gateway Qualifications Level 3 Award In Delivering Training

To achieve the Gateway Qualifications Level 3 Award In Delivering Training, the learner must achieve the single mandatory unit totalling 4 credits.

Unit Reference Number	Title	Level	Credit Value	GLH	Subject Sector code	Group Name
F/506/1139	Delivering Training	3	4	26	13.1	M (Mandatory)

3.4 Recognition of Prior Learning (RPL)

Recognition of Prior Learning (RPL) provides learners and Centres with an alternative assessment method by which a learner's previous achievements can meet the assessment requirements for a unit/qualification through the knowledge, understanding or skills that they already possess and so, do not need to develop these through a course of learning.

It enables the recognition of achievement from a range of activities using any valid assessment methodology. Provided that the assessment requirements of a given unit or qualification have been met, the use of RPL is acceptable to contribute to a unit, units or a whole qualification according to the RPL criteria for a given qualification.

The process of Recognition for Prior Learning is not applicable to this qualification.
