Introducing Gateway Qualifications

- Over 30 years of expertise
- Charitable organisation
- Free approval for our qualifications
- Flexibility in assessment
- Focus on creating the highest quality of qualifications accessible to all
- Committed to excellent customer service

What we'll cover today

- Exploring the policy
- SWAP sectors
- What the packages contain and how we can help you
- Health, Childcare and Education
- Example of our resources
- Next steps

Sector-based Work Academy Programme (SWAP)

The Sector-based Work Academy Programme ([SWAP](#)) is designed to help Jobcentre Plus claimants build confidence to improve their job prospects and enhance their CV, whilst helping employers in sectors with current local vacancies to fill them. SWAP can last up to 6 weeks and has 3 main components:

- pre-employment training
- work experience placement
- a guaranteed job interview

The scheme runs in England (and Scotland). Participants remain on benefits throughout their placement.

Only the pre-employment training element in England can be funded through AEB local flexibility, and normally lasts 2-3 weeks. Jobcentre Plus fund the other components and will pay any travel and childcare costs whilst claimants are on the work experience placement.

FE providers are part of the SWAP local design process and are informed when to expect referrals and how many.

Pick and Mix Qualifications

- ✓ Versatile
- ✓ Suit your learners needs
- ✓ Adapt to delivery needs of the centre
- ✓ Fit in with your funding needs

Essential Digital Skills Qualification

- **Size:** 45 GLH at each level
- **Coverage:** to support a range of purposes, each qualification covers all five of the skill areas from the national standards, and most of the skills statements in each skill area.
- **Purposes and target learner groups:**
 - E3 skills for life with an introduction to skills for work;
 - Level 1 skills for life and work.

Key features

- Real skills for the real world
- Life, work and study covered in each qualification
- Online, on demand assessment
- Free Initial assessment tool
- Knowledge tested through multiple choice questions
- Assessments can be taken on different devices including a laptop and desktop
- Mock tests

Level 1 and Level 2 Health & Care

How we can help you with your delivery

- Tutors overview of the qualification and the assessment criteria
- PowerPoint for delivering this qualification online or in class
- Learner's pack

The PowerPoint presentation

1. Quizzes'
2. Video links
3. Blogs
4. Discussions
5. Group, pairs and individual activities
6. Indications of learning activities and assessment tasks

Colour coordinated through-out

Discussion

Learning activity

Assessment task

Learning pack

Using the Learning Pack

The learning pack has been designed to support you to complete the tasks that have been set. These include both formative (underpinning) learning activities and summative assessment tasks (these provide the evidence for the qualification). To help you to identify the difference between the two, the following symbols are used in the learning pack.

Learning Activities – these are formative (underpinning) learning activities to help you think about the concepts you have been discussing. These do not form part of the assessment for the unit, but they do support the assessment tasks.

Assessment Tasks – these are the summative (final) assessment tasks for the unit. They form the evidence for the qualification and will be assessed against the assessment criteria for the units.

If you complete the assessment tasks meeting the criteria, you will achieve the units for the qualification.

Discussion Activities

During the sessions your teacher will ask you to watch some videos. Please make notes as these will help you with the learning activities and assessment tasks.

You will also take part in a number of discussions either as a whole group or in smaller groups. Again, it will be useful if you make notes as these discussions are tied into the other activities that you will be doing.

Teaching pack

Gateway Qualifications

Level 1 Award in Health and Care resources

These optional teaching resources aim to support the delivery of units from the L1 Award in Health and Care.

The teaching resources are divided into two units to create a package which will allow a learner to achieve the L2 Award in Health and Care.

Unit 1

- Principles and Values in Health and Social Care (Adults and Children and Young People), Early Years and Childcare

Unit 2

- Service Provision and Roles within Health and Social Care (Adults and Children and Young People), Early Years and Childcare

These show you a range of different assessments that you can use; all are optional.

Introduction to Principles and Values in Health and Social Care (Adults and Children and Young People), Early Years and Childcare

	Skills	Knowledge	Assessment Tasks
Direct observation of the learner
